YCCHS Update:

More than 2,000 Arizonans lost their lives to opioid overdoses in 2021 with fentanyl being the most reported drug in opioid overdoses. Yavapai County experiences this every day. This issue becomes even more obvious with each successful fentanyl drug-bust that YCSO conducts. The resources below provide opportunities to keep yourself and your community safe.

- [Opioid Assistance and Referral Line](#) a free resource for medical providers and patients.
- [Naloxone prescriptions](#) available at pharmacies.
- Contact ADHS at azopiod@azdhs.gov to request fentanyl test strips if you or your employees have risk of exposure overdose.

The following report, [Opioid Overdoses Surveillance Report, 2020-2021](#), shows fentanyl's prevalence and effects across Arizona. Fortunately, Yavapai County is not as heavily impacted as other counties.

The campaign "[One Pill Can Kill](#)" will likely remain very relevant in the future. Opioid overdose continues to be a significant threat to our community. Protect your loved ones and let them know fentanyl is deadly in even the smallest doses!

COVID-19 Free Testing Sites: We ask that you wear a mask at our testing sites and that you only come to be tested if you are symptomatic or have been recently exposed to COVID-19.

Prescott and Prescott Valley COVID-19 Testing Site: Prescott Gateway Mall, 3250 Gateway Blvd.
